Smashing through the boundaries  
Storming through the burning fields  
Stand before the evil one  
On towards the morning sun  
Falling under skies of pain

Still we're searching endlessly  
Crashing over seven seas,  
Torturing in the winter skies,  
Riding over plains of ice,  
Shadows in the fields of the slain!

Crashing steel and raging fury  
Smash the quest destroy their army  
Crush the legions of the twilight  
Templars of steel wil burn

Cry far away as we reach for the day  
Blasting our way through the punishment and the pain  
Reach for the world as the sky begins to fall  
Rising through the darkened ashes  
Praying that I'll see you all

[CHORUS]

Far away will our eye now see the day  
For today the everlasting eternal sun  
Washed away the dreams of a brighter day  
Forever hold the dream inside  
The chance to fight another fight  
The breaking hearts that stand for all our lives  
Live tonight, woah, woahâ€¦!

Watch you die, I watch you die inside  
While fear controls your life  
And reject this animosity  
That killed so many minds  
You feel the power deep within  
The fear you hold inside  
Just to find a reason for the treason  
Now you will be mine

Screams of pain in death descending  
Rise again from hell, defending  
Burn their hearts within the fire  
Warriors of light will be slain

Rise through the pain  
Like the sun will rise again,  
Day after day but the memories never change  
Stand before the storm as the lost horizon falls  
Blinded by the vision and  
The innocence of our souls

CHORUS

[Solos: Sam/Herman/Sam]

Woah....

[Solo: Herman]

Far away will our eye now see the day  
For today the everlasting eternal sun

CHORUS

Yeah!
