Finally all the world will see,
Rise again before the endless silence,
Look at the soul before we'll all be free,
Light the path beneath a blackened, blackened sky.

One final sacrifice, this night belongs to me,
Turn back before the dawn of winter,
So far away the cries that fallen angels free,
Through my mind tonight, our journey ever after.

Never ending solitude, this is your life to be,
So cold and dark, the voice of sadness,
Suffering enormous pain, the truth of all to be,
Crawling back to life through ever-blinding darkness.

Free falling, face falling, find the life to hold on,
Souls fearless, pain reveal us, rise now they are gone,
And as they ride away foresake the one to save us,
Winter storming ever last fallen world,
We now united in a lifetime alone,
Won't you wait for the silence so strong,
Wait for the dawn.

[Chorus]

Tonight, falling like the rain in silent teeming song,
Feel the shattered dreams, one thousand voices
crying,
Raging endlessly they come, whoa,
And the morning light the high, the darkened days
gone by,
And the sun will shine again across the blazing skies,
Glorious eternally we'll rise above the world,
Marching on to victory we fight,
The fire still burns...

Looking back out past the lives, their memories to see,
Flick through the passages of silence,
Hidden by the sacrifice to set the demons free,
Now they understand reflate the land relentless.

Fear calling, transforming, stand alone in our time,
Aggregation, decimation, slay the vision divine,

And all the stars fall around the world tonight,
Silent forces from a past life return,
Wait for the silence in a world so alone,
Til' we touch the horizon beyond,
Fly through the storm.

[Chorus]

Tonight, falling like the rain in silent teeming song,
Feel the shattered dreams, one thousand voices
crying,
Raging endlessly they come, whoa,
And the morning light the high, the darkened days
gone by,
And the sun will shine again across the blazing skies,
Glorious eternally we'll rise above the world,
Marching on to victory we fight,
The fire still burns...

The tears in your eyes,
A lifetime of misery,
In silence we stand all alone for the fate of our own
destiny,
A lifetime of lies,
One chance at this fantasy,
The judgement will pass for the cries of the world that
has faded from me.

Whoa, oh oh oh,
Whoa, oh oh oh,
Whoa, oh oh oh oh oh oh oh oh ohhh,
Whoa, oh oh oh,
Whoa, oh oh oh,
Whoa, oh oh oh oh oh ohhhh oh oh oh.

[Chorus]

Tonight, falling like the rain in silent teeming song,
Feel the shattered dreams, one thousand voices
crying,
Raging endlessly they come, whoa,
And the morning light the high, the darkened days
gone by,
And the sun will shine again across the blazing skies,
Glorious eternally we'll rise above the world,
Marching on to victory we fight,
The fire still burns...
