[Spoken]

A Supernova is an extremely energetic stellar phenomenon.

The explosion is believed to have formed subsequent generations of stars, Planets, and eventually life itself. The amount of energy unleashed, Is marvelous.

Do you believe in powers extreme?
Bewildering majesty
Can you perceive a vision supreme?
Eruption Serene

Grim destiny
Infinity
Radiant intensity
Ethereal sphere
Future Severe
Benevolent fear

Into it's fortune bestowed
Marvel and let it explode!
To the inferno we go

Detonate the sun,
And soar into the supernova
Now it has begun
A solar mass undone

Say can you feel
Destruction surreal?
Deadly calamity
A final demise in godly disguise
Now will arise

Head to the wisdom of old
Unleash a glory untold
To the inferno we go

Detonate the sun,

And soar into the supernova
Now it has begun

Into it's fortune bestowed
Marvel and let it explode!
To the inferno we go

Detonate the sun,
And soar into the supernova
Now it has begun
