How I been waiting
Oh I've been longing
for that look in your eyes
that I know
I never thought it'd be this way...
Now you're gone.

Forever
this is the moment to remember me
'cause I'm losing my

Illusion
I see you in my mind
Confusion
Life is over right before it has begun
Delusion
I hear a whisper in the summertime
Confusion
Life is over right before it has begun

Oh, I never thought it'd end this way.
You're not here. (?)
'cause I've been searching for

forever
This is the moment to remember me
'cause I'm losing my mind

Forever
this is the moment to remember me
'cause I'm losing my mind

Illusion
I see you in my mind
Confusion
Life is over right before it has begun
Delusion
I hear a whisper in the summertime
Confusion
