Every single thing is static
In my nightmares iron skeletons want to touch me
Huddled up in a corner I hear just my mourn of a man
That step by step turns into a kid's mourn, that step by
step turns into a baby's mourn
That step by step turns into a fly's buzz... What am I
now?

[Solo Hell:IO:Kabbalus]

His smell gives me nausea and it's impressed in my
mind
In between the dream and the refuse of what dawn will
bring
Wrong! and I did it again! Sacrifice! In the name of
corruption
Wrong! and I did it again! Psychogrotesque fairytale
Wrong! and I did it again! Sacrifice! For all the puppets
hanged down their lies
Wrong! and I did it again! Atavistic daily disgrace
Humanity - perpetual carnality / insanity - perpetual
carnality
Wrong! and I did it again! Sacrifice! In the name of
madness and free-doom
Wrong! and I did it again! Psychogrotesque fairytale
Wrong! and I did it again! Sacrifice! Spiritual harlotry
Wrong! and I did it again! Lobotomized neurotic youth
