Az e jszaka szulott je, a forditott let sar ja,
A rettegett ordog, orokke ego legenda..

The native of dragons, The leader of the wolves
Rhadamantus tyrant, The Great Impaler Void

He hated the lairs at all, never casigated the truth
Slayed the rag-pickers at all, could not spare the riches
too
He nailed the hats on their heads, this way kept the
traditions of his guests
Had his feast in his forest, was made of the victims
been impaled

Az e jszaka szulott je, a forditott let sar ja.. a karoba
huzo vajda!
A szelrozsa minden irányába menekult volna ki merre
lat.. egesd fel a csurt!

Sad sad desinty, but their catharsis had to be done..
anyway.
The nature always find the way to cut off what is rather
like a stunt.
