"Alone"

I've seen your greed, feed upon me
So you think that you're drained by the monster you've
created
Isn't this what you long ago chose to be your fate?
Can you see my eyes? Can you see me?
I am alone. Won't you see how I burn
So I will burn, I've stared at the sun
Seeing behind every configuration only death
The awareness in every second one last breath
How can you live if this is all it will be?
I am alone. Won't you see how I burn
See if you can understand why I am
Understand Why I am
Understand Why I am
