Seal your eyes and use them inside  
See if you know who I am  
Feed your lies and breed them a while  
Meet them again when you're near, yeah

Under skin, left within  
Seamless scars, can't deny  
From the inside, crucified

In silence, resentment bleeds through  
It's somewhere your past will resort  
Feeling dry, I'm dying you know why  
I'm drained from the wound that won't heal, yeah

Under skin, left within  
Seamless scars, can't deny  
From the inside, crucified

Under skin, left within  
Seamless scars, can't deny  
From the inside, crucified  
From the inside, crucified
