Visit "[Get Inside](#)" on MotoLyrics.com

Silence now the only sound
Shadows gathering around
Hiding thoughts inside my mind about you, yeah, yeah

I lost what I just had to steal
What we had was so unreal
Bleeding scars I tried to heal in me, yeah, yeah

Get inside, fill my mind
Can't define, I don't know why I
Get inside, fill my mind
I can't define, I don't know why I try

Tried to live through sacred lies
Feelings had to be denied
Knew it all just had to die away

Get inside, fill my mind
Can't define, I don't know why I
Get inside, fill my mind
I can't define, I don't know why I try

Get inside, fill my mind
Can't define, I don't know why I
Get inside, fill my mind
I can't define, I don't know why I try
