Take me in your arms I need to rest
Rest my head against your chest
Stop me from drifting it feels like I'm fading away,
away

Father o' father
I know you can see I'm in pain
Always remain, lost out in the rain

Help me to carry, carry the stone
Life's running out of an open wound
When twisting and turning, endlessly burning
You soothe, you soothe me

Every beat of my heart brings me closer to death
Every breath
All my candles have burnt out

I wish there could be
Mercy for me
Begging on my knees
Praying to find peace

Pain, always remain
Father feel I'm in pain

I wish there could be
Someone there for me
Begging on my knees
Praying to find peace
