She says kiss me like you miss me  
Fuck me like you hate me  
And when you're fucking someone else  
Just fuck her like she ain't me  
Damn, those words are scary  
Those words are scary, Virgin Mary  
I just tell her to spare me

I was in love two years ago  
And gave the baggage to my ex  
That's all for her to carry  
Bags she deserve to carry. I hate that hoe  
I make it so hard just to talk don't I?  
I get off topic, don't I?  
I get it poppin', don't I?  
I'll end up stoppin', won't I?  
And by the time I end up stoppin'  
You'll be rockin' one of the rings that you pointed out  
While shoppin' with a nigga, don't lie.

Uhh...  
She's losing it right now  
Cause if I wasn't who I am  
She woulda been movin' in by now  
But instead we're movin' slow  
I guess she's used to it by now  
And she gives me all her trust  
And I'm abusin it right now  
But this money comin' in is just confusin' shit right now  
You just told me i ain't shit  
I guess I'm provin' it right now

[Hook]

I said I'd rather be with you  
But you are not around  
So I'ma call somebody up  
And see if they be down  
Cause I hate sleeping alone  
I hate sleeping alone

Half the time we don't end up fuckin'

I don't ask her for nothin'  
They leave me in the mornin'  
I don't see her for months  
But I just hate sleeping alone  
I hate sleeping alone  
So she's here and were both so gone

[Verse]

Hotel to hotel  
Girl, I could use your company  
Full name, and birthday, I book a flight and you come  
to me  
But she don't want a weekend  
She wants all of me or none of me  
If she can't work with all of me then she says she's  
done with me  
You say that your over me  
You always end up under me  
You know how it goes  
Don't be crazy, don't play dumb with me  
Don't start with your shit  
I put you back in your place  
She tells me "I bet you won't"  
You won't say that to my face  
And hangs up

How dare you tell me it's tougher for you  
Like I don't hear about the niggas you fuckin with too  
And whoever I be with they got nothin' on you  
That's just somethin to do, when there's nothin to do  
Yeah, but she's just loosin it right now  
She has choices she should make  
I think she's choosin it right now  
One more chance to make it right  
I think I'm using it right now  
You just said I never learn  
I guess I'm provin it right now

[Hook]
