Damn, another 20 missed calls. I love her and i hate her it's a funny twist ya'll. Can't stand her when she in town but miss her when shes gone. Truth be told i'd rather be with her then alone. But fights break out, and nieghbors call 5-0. Screaming you the most foul bitch i know. Forever mine, wherever i go sex pistols out, die slow. Nah, die slower then that just, colapse all over my mattress. Who shot ya, that nigga ain't finished. So once again i find myself in it. Click Clack. Just let me take a minute round 2 is in the chamber all you gotta do is spin it. Aim for the heart, battle of the sexes, alls fair in love and war casualties expected.
