[Drake]

Check!

They ask me about this rapper chick I might know  
I say I never hit it but we sure to try it right though  
my verses smother pizza and they are in need of some  
lipo

as for rappers, she is not my type, she's like a typo  
flow is universal, take a blood test, I'm type O  
Nottz do me a favor, turn the volume up, it's quite low  
alright so, I might blow, my chain ?

see life is a scrimmager I am running the ice so  
what is about to unfold, don't tell 'er like a dice throw  
meet a lot of chicks so your girl is someone I might  
know

its only if she's nice though, I ain't about the wife  
though

and let know, Uncle Ben's rice throw, that is just how  
my life go

and move faster than the leopard sprint  
around the world, got a lot of spots like leopard print  
I used to think you play too much  
but I'd rather go deaf than lose touch  
holla at me baby

[Chorus]

look,

been a minute, I know my number outta service  
cuz sometimes I don't really wanna be reached  
damn now things change in a year

tell me how everything go

and I know someone told me you wanted to teach  
lemme give you my (new sh-t)

now lemme give you my (new sh-t)(x6)

then call me anytime, I'll bet you I'll be around, 'round

[Drake][Verse 2]

since you came into college, hill is somethin you still  
tebow

then you switched the vibe and listened to Il Divo  
or maybe DMP, A Tribe Called Quest

but when you call too much then I call less  
you would always complain about my small texts  
but what you call conversation I call stress  
and that put a barrier between both of our carriers  
and I would be like "I ain't getting service in your area"  
you be like "n-gga get your balls up"  
I just string you along like I was tuning guitars up  
I know that I was wrong  
I think that this is fate  
you took out those extensions and lost you a lil weight  
your booty lookin bigger and I think that sh-t is great  
a fresh start is in order, lemme take you on a date  
take you on a date, I used to think you used to play too  
much  
but I'd rather go deaf than lose touch  
holla at me baby! (look)

[chorus](x3)
