[Drake - Verse 1]

Can I, can I save you from you
Cause you know there's something missing
And that champagne you've been sippin's
Not supposed to make you different all the time
It's starting to feel like the wrong thing to do girl
Cause with all that recognition it gets hard for you to
listen
To the things that I must say to make you mine
But live girl, have some fun girl, we'll be fine
Trying to convince myself I've found one
Making the mistake I never learned from
I swear I always fall for your type, yeah (for your type)
Tell me why I always fall for your type (for your type)
I just can't explain this sh-t at all (fall for your type)
I just can't explain this sh-t at all (fall for your type)
(I believe in people like you)

[Drake - Verse 2]

So who am I to judge you on the past, girl
I think there's a reason for it all
You say that you're nothing like the last girl
I just pray that you don't let me down right now
It's too late, I'm already yours
You just gotta promise me, hearts won't break
And end up like before
I swear I always fall for your type, yeah (for your type)
Tell me why I always fall for your type (for your type)

[Drake]

Look, dress hanging off your shoulder, barely sober

Telling me how you moving away and starting over
Girl, quit playing you just drunk, you just saying sh-t
Oh you dance, dance like how, like ballet and sh-t
Oh, wait, no, I get it girl, I'm with it
I've been down this road before and yeah I skidded but
forget it
Damn, yeah, I wonder why I never why I learned my
lesson
It's feeling like the second chance and its the first
impression

And I heard it's nothing new except for someone new
But how you supposed to find the one when anyone will
come with you
Talking to myself but I never listen,
Cuz man it's been a while, and I swear that this ones
different
That's why I'mma take you anywhere you wanna go
Let you meet my friends so they can lecture me again
about
How reckless I have been
And I'm slowly running out of all the time that I invest in
Making all the same mistakes
And I'm just trying to correct it and I fall..

[Drake]

I swear I always fall for your type, for your type
Tell me why I always fall for your type, for your type
I just can't explain this sh-t at all (fall for your type)
I just can't explain this sh-t at all (fall for your type)
(I believe in people like you)
