Hey girl, do you want my number  
That way you can call me  
Every time I come into town  
And then I will drive up to your house and  
Take you out to dinner  
I don't expect nothing at all

What if we happen to kiss, then we touch  
Put a rush on it, get it over with  
What if I just know what you like  
And if feels right, then it's over with  
What if I don't call you back, prove you right  
All this lasts is just one night  
Baby we should slow it down

Hey girl, I'm back in Atlanta  
Seconds dates are lovely  
This time you should choose where we go  
Need suggestions, how about the movies  
Then we go for ice cream  
I'm not picky, you let me know

But what if we happen to kiss, and we touch  
Put a rush on it, get it over with  
What if I just know what you like  
And if feels right, then it's over with  
What if I don't call you back, prove you right  
All this lasts just one night  
Baby we should slow it down

Girl I ain't pimp, girl I ain't a player, no  
I ain't tryna move too fast so Imma just take it slow  
Girl I just wanna know  
What would happen if we made love  
Would we have the same feelings when we wake up  
Will be still spends hours on the phone  
Wishing we was alone  
Would you speak to me in a totally different tone  
I don't know but, I guarantee two things in life  
One is death and the other is I can change you whole  
life in one night

Doing wrong always feels so right

It can start up with kiss, leading to a touch  
Forming a relationship based solely around lust  
I'm trying to move slow, relaxing the drift  
But every time I do my brain's reaction is this

What if we happen to kiss, and we touch  
Put a rush on it, get it over with  
What if I just know what you like  
And it feels right, then it's over with  
What if I don't call you back, prove you right  
All this lasts just one night  
Baby we should slow it down

Maybe we should slow it down  
If you're ready we can go all the way baby  
We can go all the way  
Baby we should slow it down
