"Sooner That Later"

Visit "[Sooner That Later](#)" on MotoLyrics.com

Um, i forgot to call you on your birthday
you swear your the last thing on my mind There is
nothing I can do to fix it
All you ever asked me for was time

When our lights don't glow the same way that they
used to And I finally get a moment to myself
I will realize you were everything I'm missin
And you'll tell me you're in love with someone else

So can you do me a favor?
If I pull it together
Make it sooner than later
We wont be here for ever
And ill realize I waited too long
But please don't move on
You don't need no one else
You don't need no one else
You don't need no one else
You don't need no one else
You don't need no one else

You just changed your hair and it looks perfect
Wish I was the first to let you know
Every chance I get to make it better
I just find a way to let it go

When our lives don't go the same way that they used to
And I finally get a moment to myself
I will realize you were everything I'm missin
And you'll tell me you're in love with someone else

So can you do me a favor?
If I pull it together
Make it sooner than later
We wont be here for ever
And ill realize I waited too long
But please don't move on
You don't need no one else
You don't need no one else
You don't need no one else

You don't need no one else
You don't need no one else

The girl or the world
You see someone gotta loose
I thought I could have it all
Do I really gotta choose?
What good is all the cash
If it doesn't buy time
And what good is bein famous
If im never on your mind
Nights fallin
Lights glowin
And im just tryin ta pay the price on
And I don't wanna feel the comfort from my ice showin
And I aint tryin ta be with out you at the right moment
Nigga nights gone is it worth it?
That decision cuz hearts break in
I aint tryin ta be in that collision
So im dust my shirt
And fix my pants cuz I better look good girl if this my
chance I swear

So can you do me a favor
If I pull it together
Make it sooner than later
We wont be here for ever
And ill realize I waited too long
But please don't move on
You don't need no one else
You don't need no one else
You don't need no one else
You don't need no one else
You don't need no one else
