It bothers me when the Gods get to acting like the
broads
Guess every team doesnt come complete with niggas
like ours
Thats why I see no need to compete with niggas like
yall
I just ask them when you see me you speak up nigga
thats all
Dont be ducking like you never wanted nothing
Its feeling like rap changed, there was a time it was
rugged
Back when if a nigga reached it was for the weapon
Nowadays niggas reach just to sell they record
Spaghetti bolognese in Appolo lounge
Me and my G from DC thats how I roll around
Might look light, but we heavy though
You think Drake will pull some shit like that you never
know
Million dollar meetings in appollo lounge
Me and my man all Oliver North thats how I roll around
Shawty wanna tell me secrets bout a rap nigga
I tell a bitch its more attractive when you hold it down
Kobe bout to lose a hundred fifty Ms
Kobe my nigga I hate it, had to be him
Bitch you wasnt with me shooting in the gym
(Bitch you wasnt with me shooting in the gym)
Tell Lucien I said f-ck it Im tearing holes in my budget
Bag her like we in Publix and take her ass out in public
Ordered it a filet tell her butterfly shell love it
She used to soda and nuggets she really just out here
thuggin
Im just hittin my pinnacle you and pussy identical
You like the f-ckin finish line we cant wait to run into you
But let me get my mind of that
Young rich muthaf-cker getting mine off rap
with my niggas
