[Trey Songz]

How about we just pull over and do it where we at?

How about you just pull your skirt up..

We could be bad

That place that ? won't stop getting on me

All that juice just keep spilling on me

Girl - giddy up! Giddy up!

Take me on a ride to ecstasy

You don't wanna bump, bump, then take a nap

You just wanna bump, bump, get it right back

I'mma get it up, get it up

I know you're tired of the usual, the usual

I could give you more than the usual, the usual

When we touch, you gonna feel something unusual..

Tell you what, let me touch, you gonna feel something

Unusual..

What if we did it when your friends was in the room?

Is that too much for you?

We can make the sex wherever we go

Take it to the restroom, baby gotta know

Got me heated up, heated up

Do you hear me girl?

Know you're tired of the usual, the usual

I could give you more than the usual, the usual

When we touch, you gonna feel something unusual..

Tell you what, let me touch, you gonna feel something

Unusual..

Mess around (check)

Set em up (check)

On the hood (check)

Of my car (check)

On the top (check)

Balcony (check)

In the Jag (check)

On the beach (check)

[Drake]

This that other shit - I know you asked for it

I might just save you some money, get your passport

So you can come to my city  
I take it all over, and hit you on the balcony  
Please don't fall over!  
Send me your pictures, baby, you know I'd never leak  
it  
I know you got something recent for someone decent  
Why you laughing out loud? I'm serious!  
Bring your girl if you a little bi-curious  
Please don't start telling the others  
I know you gonna love it  
Might feel like I expected all the things you  
Expected. You gonna know it when you bring your ass  
To me

[Trey Songz]

Know you're tired of the usual, the usual  
I could give you more than the usual, the usual  
When we touch, you gonna feel something unusual..  
Tell you what, let me touch, you gonna feel something  
Unusual..

All kinds of ways, in different places  
Because of all the faces you're making  
Can you take it?

"..thought that I was nasty last time.."
