[verse 1]

yeah, never thoughts of suicide, i'm too alive
but i still treat it like it's do or die
even though dying isn't in the plans, but neither was
making it and here i am
in the presidential do you like your new room?
always presidential and tonight's no blue moon
since i saw aaliyah's precious life go too soon, she
deserve the credit for how i'm about to get it
that's why i got a new dumb thing moving through the
street
got a new condo, move it to the beach
heard nicki just bought a brand new crib
goddamn man she's beauty and the beast (lord)
seems like yesterday that i was up and coming
still so young that i ain't had enough of nothing

the fam here, the drink here, the girls here?
well fuck let's get it then

[hook]

i'm trying to let go of the past
should we make this one a double?
you ain't even gotta ask, ahh
because it's hard to say no, say no
yeah it's hard to say no

are you down, are you down? yeah, you all the way
down, every time
am i down, am i down? yeah, i'm all the way down, we'll
be fine
are you down, are you down? yeah, you all the way
down, every time
am i down, am i down? yeah, i'm all the way down, we'll
be fine

[verse 2]

used to make us proud we had dreams of getting
bigger man
loved you until now, but now i'm the nigga man
you keep talking that, "you was this and you had this
and you deserve some fucking credit how did anyone

forget it"
got a show up in your city, yo girl is in the line
and the line around the corner, it's my motherfucking
time
you should take it as a sign, man i got it right now
i wouldn't doubt it cause these bitches all about it right
now
let's be real about this shit, can i take you home?
or come to where you stay? do you live on your own?
i heard you got your ways, i never would have known
she said, "you're such a dog", i said, "you're such a
bone."
i've been everywhere, where you know me from?
these days women give it to me like they owe me one
but they crave attention though they always saying,
"show me some"
but girl you ain't the only one that's trying to be the only
one
at least i admit that, if you get that, and you with that
then fuck let's get it then

[hook]

[birdman]

love em!

toronto, stand up for one of the realest niggas
drizzy, with the realest flow, y'know?
toast to this gangsta shit, (to this gangsta shit)
ovo ymcmb (belee that!)
