(First Verse)

Shawty badder than a 3 year old
keep playing and imma eat her like a pita roll
Im just sayin with my love I could feed her soul
two day getaway and we dont need our clothes
we at the pool and she lookin like a center fold
two tattoos but she say she gettin plenty mo
She got Indian in her family, seminol
me and shawty go together like chemicals
and she get mad when I call other woman hoes
you send a rose, I pick some flowers and send her
those
tall glass of Merlot get her in the mode
two tall glasses of Merlot get her out her robe
I whisper in her ear, than lick around her lobe
and when she check her watch, it's never time to go
and with her brain she should make the honor roll
And when I came, she caught me like the common
cold.

(Chours)

God damn you the sh-t
and I'll rip my heart out and hand you the sh-t
And I dont really know how to handle this sh-t
But tonight its moonlight and candles and sh-t

With you baby
With you baby
with you baby
with you baby
With youuuu and only you

(Second Verse)

Uh I say damn I must be left cause you the best I ever
seen right
shawty put me on, you got me gone like some green
lights
See you with your girls, they probably telling that he
aint right

Bet they be the same bitches at the wedding throwing
rice
Lets get together over night
Shawty im a pro and you are lookin like the protoype
But see that I took your advice,
sometimes you got to blow it twice then shake it up and
roll the dice
Im crusin on the road of life but I need a passenger
Appettite for lovin, ma im hungry like a scavenger
I-I be on that lavender
I-I be in the bath with her
Then I gotta go under that water like a mariner

(Chorus)

God damn you the sh-t
and I'll rip my heart out and hand you the sh-t
And I dont really know how to handle this sh-t
But tonight its moonlight and candles and sh-t

With you baby
With you baby
with you baby
with you baby
With youuuu and only you

(Last Verse)

Now she dont know about me
But Imma put her on it
And she aint show up out me
But cant go without me
We probably aint supposed to be together
but I wonder if our love affair her could last forever
And shawty Im with ya
Smoke alot of weed but I could never forget ya
Then I told her to her face,
If everyone was like you the World would be a better
place

(Chorus)

God damn you the sh-t
and I'll rip my heart out and hand you the sh-t
And I dont really know how to handle this sh-t
But tonight its moonlight and candles and sh-t

With you baby
With you baby
with you baby
with you baby

With youuuu and only you
