I'm deleting all the messages out of my phone
Cuz I just really want to be alone
I don't really need you here at home
It's the way it is so leave me alone

I just wanna go all around the world
Try to make this a better place for me now
It's my time
In the sunshine
Take me away from here now

I'm giving you a note
From something that
It says that I gotta go away from here
I don't really need you here at home
It's the way it is so leave me alone

Chorus
I just wanna go all around the world
Try to make this a better place for me now
It's my time
In the sunshine
Take me away from here now

Shoo-Be-Doo
Yeah
Doo-Doo-Doo
