When you're feelin' down
Gonna give up on life now
Well I'll be right behind you
You're feelin' too much pain
You feel you're goin' insane
Well I'll be right beside you

You feel you're gonna fall
You feel you're gonna fall
You feel you're gonna fall
Well I'll be there to catch you
I'll be there to catch you

You're feelin complicated
You say that's overrated
I'll be there to smile for you
Cause I know what you've heard
You're feelin' entertained
I'll be there to praise you
Well baby I'm with you

You feel you're gonna fall
You feel you're gonna fall
You feel you're gonna fall
Well I'll be there to catch you
'Cause I'll be there to catch you

I'll be there to catch you
And I'll be there to catch you
Yeah yeah
And I'll be right there
