### "Move On"

Visit "[Move On](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I follow your lead right down to the letter  
I built you a house to ease off the weather  
But I painted the wrong house  
'Cause you made up your mind and left me behind  
I built you a fire and gave you the colors  
You said I was so far in front of the others  
But I'm lasting a long line  
People would say you're the one that got away

My whole world is black and blue  
You're everything I knew  
If I could get over you...

I could move on  
I could move on

The day is anew the past is forgotten  
But still I remember when I felt rotten  
'Cause I'm sick of the same things  
I've gotta open my mind and leave her behind  
With everyday I feel a lot stronger  
'Cause yesterday don't live any longer  
Yes the future is so bright  
I gotta kick up the dust and make it a bus

My whole world is black and blue  
You're everything I knew  
If I could get over you

I could move on  
I could move on
