She's on her own
Wonderin' if he misbehaves
While he's out at sea
Lost in the ocean waves
She doesn't know
If his boat will ever show
That's why I'm gonna say to you
My dear
Before my lips turn blue
I'll say to you
Before you go
Don't you know

That it's me and it's you
I know what they've done and I know what they're
comin' to do
So don't pretend
That you know
'Cause you don't
I know what they want and I saw where they wanted to
go
And I said no
I said no

She's (she's) on her own
Wonderin' if he misbehaves
While he's out at sea
Lost in the ocean waves
She doesn't know
If his boat will ever show
And that's why I'm gonna say to you
My dear
Before my lips turn blue
I'll say to you
Before you go
Don't you know

That it's me and it's you
I know what they want and I know what they wanted to
do
So don't pretend
That you know

'Cause you don't
I saw what they want and I saw where they wanted to go
And I said no
I said no

Musical Break

And that's why I'm gonna say to you
My dear
Before my lips turn blue
I'll say to you
Before you go
Don't you know

That it's me and it's you
I know what they want and I know what they wanted to
do
So don't pretend
That you know
When you don't
I know what they want and I know where they wanted to
go
And I said no
I said no

All about the air
All about the water
All about the sky
All about the water
