The uh behavior of the politicians has at times been  
rather weird and they do things that uh are not  
acceptable

Watchin' TV everybody's takin' sides  
They all got nothin' to say  
It's all about the spin  
It's all about the spin

On the surface everybody seems right  
Who you gonna believe today  
It's all about the spin  
It's all about the spin

You could read it in the New York Times  
Watch an all day line  
Take it your own way

It's all about the spin baby spin baby  
'Cause that's the way they win baby win baby  
It's all about the spin baby spin baby  
'Cause that's the way to win

Skin talks and bullshit walks  
Anything to get it sold  
It's all about the spin  
It's all about the spin

A pretty face with everything we placed  
No one ever seems to get old  
It's all about the spin  
It's all about the spin

You could read it in the New York Times  
Watch an all day line  
Take it your own way

Twisted truth and  
Painted lies  
Right before your eyes

It's all about the spin baby spin baby  
'Cause that's the way to win  
It's all about the spin  
'Cause that's the way to win

Twisted truth and  
Painted lies  
Right before your eyes

It's all about the spin  
'Cause that's the way to win  
It's all about the spin  
'Cause that's the way to win

It's all about the spin baby spin baby  
'Cause that's the way to win baby win baby  
It's all about the spin baby spin baby  
'Cause that's the way to win

It's all about the spin  
Yeah  
'Cause that's the way to win  
Oh oh  
It's all about the spin  
'Cause that's the way to win
