[Great Dragon rising from the mountains of lo]

Here on these mountains I have found my destiny  
My training's over now, after many years  
The wisdom of the ancients will be guiding me  
The spirit and greatness will forever live

[Bridge:]

Am I worthy for this legacy?  
Will I live up to it?

[Chorus:]

Feel the power and the might  
Of the Dragon of the East  
Rising from the waterfalls  
Evil ones you must beware  
Of the power of the Shield  
And the mighty Dragon Fist

The knight of Libra taught me everything I need  
Not to betray his lesson, this is up to me  
The mighty dragon's cloth now is mine by right  
Burns all the power of the stars I have inside!

[Bridge]

[Chorus]

Instead of falling the water will rise  
This is the power in me  
Forces of nature I know and command  
As long as my heart is clean  
I'll fight for justice all over the world  
This is the promise I make  
Follow the dragon, follow the light  
It is calling my name

[Chorus]
