I don't have confidence like he does
No, I'm not brave or smart like he is
but can he make you laugh like I can?
I doubt it, I doubt it.

I can't always go out like he does
No, I'm not rich or smart like he is
but can he make you smile like I can?
I doubt it, I doubt it.

He can buy you anything you want but
He can't buy you a love song.
And everything gets complicated
When you step over through the conversation and
I watch your feelings die.
Everything is overrated, sometimes
It seems like we did fake it and I watched your feelings
die.

I don't read your mind like he does
No, I'm not an asshole like he is
Can he make you cry like I can?
I doubt it, I doubt it

He can buy you anything you want but
He can't buy you a love song.
And everything gets complicated
When you step over through the conversation and
I watch your feelings die.
Everything is overrated, sometimes
It seems like we did fake it and I watched your feelings
die.

Everythings gets complicated when you step all over
through the conversation and I watch your feelings die
Everything is overrated, sometimes it seems like we
did fake it and I watched your feelings die.
Everythings gets complicated when you step all over
through the conversation and I watch your feelings die
Everything is overrated, sometimes it seems like we
did fake it and I watched your feelings die.
