She sleeps on a dirty bed
With her demons in her head
She's been thinking about things that I used to say
And now she wishes there were things that I would still say

And her hands are covered in blood
They are scars and marks from us
The stars light the night sky but they faded away
I don't think she even noticed them in the first place

She's my lover, she's my baby
But I don't know what we're doing
Yeah, it confuses me
She's my sweetheart, steals my heartbeat
But I don't know what she's doing
Or if she's even still thinking about me

Got my body filled up with liquor
'Cause I've been feeling kind of low
Take me lower than I thought I ever could go
You think after these years that I would've known

I've got my head filled up with cocaine
And I can feel it hit my brain
It makes me feel like I'm on top of the world
No walking backwards anymore, 'cause I'm sick of you girl

'Cause she's my lover, she's my baby
But I don't know what we're doing
Yeah, it's confusin' me
She's my sweetheart, steals my heartbeat
But I don't know what she's doing
Or if she's even still thinking about me
