Let's pretend I told you what I wanted make believe it
fell within my reach would there be a place for what I
hoped for?

In the end would there be a place for me?

Get me high on something show me what to do I get by
on nothing as long as something keeps me close to you

There's the matter of your fineness then there's how I'd
pay my way if you fall on my sword
I will bleed out for us both if you fall on the road there
will be nothing that I couldn't hold

Get me high on something show me what to do I get by
on nothing as long as something keeps me close to you
