### "Living Too Fast"

Visit "[Living Too Fast](#)" on MotoLyrics.com

Every detail... spoken inside my mind  
Every action... catching me from behind  
Every firefight... bullets inside my...  
I can't turn my head around sideways cover my back  
don't let me down

You swear, you say... I'm living too fast  
I know you say  
You swear, you say... I'm living too fast  
I know you say

Black summer... windows shot out below  
Black winter... fire in the hole  
I'm running... nowhere left to go  
I can't turn my head around sideways cover my back  
don't break me down

I know you say... I'm living too fast  
You swear, you say... I'm living too fast  
I know you say

(you swear, you say... I'm living too fast)  
(I know you say)

Nine eight seven six five four three two one gotta burn  
gotta burn the sun [x4]
