She dances
He watches
She sighs
Remember
Love needs no disguise
In motion
That cannot deny
She's saying
Love needs no disguise
And if the park gates are closed
Remember we toured the skies
And if the 'friends' all go home
You know love needs no disguise
He dances
And we realized
Remember
Love needs no disguise
In simple embraces
They lie
In darkness
Love needs no disguise
And we can lock all the doors
Forget the reasons and fame
There's no deceiving inside
You know we'll all be the same
And if the park gates are closed
Remember we toured the skies
And if the 'friends' all go home
You know love needs no disguise
