Watch you waiting on my life now  
Turn turn  
I couldn't give a damn  
See my smile upon your face now  
Turn turn  
You couldn't keep your eyes off me  
He only wants you for an evening  
Turn turn  
I'll take you for my own  
Can't you see through his deceiving  
Turn turn  
Don't let him take you home tonight  
Which direction can you take for to  
Turn turn  
Will surely bring you here  
Watch my perfect silhouette oh  
Turn turn  
Another cigarette or two  
You call that company around you  
Turn turn  
They couldn't give a damn  
I see the sadness in her eyes now  
Turn turn  
She looks a lot like me
