Angel... angel
At night
I walk the streets alone
Each shadow holding promises of you
Faces all melt into the lights
The sky has turned the color of your eyes
Bring me off on my bed of paradise
On wings of desire my love
We'll fly beyond the stars

Angel... angel
At night
I walk the streets alone
Each shadow holding promises of you
Faces all melt into the lights
The sky has turned the color of your eyes
Take to the stars my precious angel
On wings of desire my love
We'll fly beyond the stars
Bring me off on my bed of paradise
On wings of desire my love
We'll fly beyond the stars
Angel... fly angel
