There is no rationale, nothing is real  
There is no sympathy when one cannot feel  
Distorted mirrors, you see yourself  
Trapped in your nightmares, nothing else

Blacked out in this blacked out world  
Blacked out in this blacked out world  
Blacked out in this blacked out world  
Blacked out in this blacked out world

Architect of hate, creator of doom  
Upon those wings of destruction will be there soon  
Commit your final suicide, your final act  
Last show of atrocity, ain't no coming back

Blacked out in this blacked out world  
Blacked out in this blacked out world  
Blacked out in this blacked out world  
Blacked out in this blacked out world

Blacked out in this blacked out world  
Blacked out in this blacked out world
