Kill your past and all you thought you knew
Blacked out, hatred running through and through
Horsemen rolls, tomorrow's fading fast
Make damn sure, aint nothings gonna last

Ohhh
Ohhh
Doomsday jesus we need you now
Ooh
Ooh
Doomsday jesus we need you now

Souls that bleed have nowhere left to run
Blind the crucifix and shoot the gun
Generals speak, we leave a trail of dead
Keep on killing 'til theres nothing left

Ohhh
Ohhh
Doomsday jesus we need you now
Ooh
Ooh
Doomsday jesus we need you now
