RIGHT!

And There Sights of all, that you've earned.

Nothings Alright.

RIGHT!

You think you know inside but you don't!

Nothings Alright.

Breathe in, Breathe out.

I don't know where we stand.

Step in, Step out.

Time in time again.

You think you can leave on to believe

That you and me jammed in some kind of dream

FUCK THAT SHIT!

I cannot stand because you make me sick

Step off step off and RUN!

And There The Sights of all, that you've earned.

Nothings Alright.

RIGHT!

You think you know inside, but you don't!

Nothings Alright.

Breathe in, Breathe out.

This is going to hurt.

Good-bye, so long, hope you have a good life.

I cannot take the way you bring me down.

You think you know everything about me.

FUCK THAT SHIT!

I cannot stand because you make me sick.

Step off step off and RUN!

And There The Sights of all, that you've earned.

Nothings Alright.

No Oh... Nothings alright.

No Oh... Nothings alright!

I'm Going Crazy Just from the thought of you!

Ripped out my soul, ripped out my heart but I would
always come back to you

How fucked is that?

But I will never get it again never again cause I feel
something larger than this, larger than you but you will
never know how it feels know what it takes cause some
like you never is sure never is clear but you have
always ripped out my soul ripped out my heart but I
would always come back to, how fucked is that?

But I will never get it again never again cause I feel
something larger than this larger than you But you will
never how it feels know what it takes cause someone
like you never is sure never is clear but you have
always ripped out my soul, ripped out my heart but I
would always come back to you how fucked is that?

But I will never get it again never again cause I feel
something larger than this, larger than you but you will
never know how it feels know what it takes cause
someone like you never is sure never is clear.
