"Ashley (Interlude)"

[Announcer:]

Ladies and gentleman
Please welcome to the stage
Ashley Poole

[Ashley:]

Ladies, listen up
A wise woman once said
When God created Adam and Eve
He created everything
That a woman should be
Her worth is precious
Like the sun in the sky
She gives birth to all men
And is queen of her life
Don't be fooled by the beauty within her
Because the strength she holds
Is powerful and pure
Just as the stars light up our night
A woman is needed to guide, shine and fight
I am woman

[Diana:]

Awesome, what wise woman said that?

[Ashley:]

Huh, I did
