I'm staring at you, waiting for the time to come,  
The time of when I finally tell my true feeling deep  
down inside,  
Now I know there ain't nothing more to hide,  
Just when I tell you, will you have the same feeling for  
me,  
And I just wanna say, I miss you, please come to me,  
And say I like you, right to my face,  
So we'll be put right in our place.....to say....

[chorus]

Just you and me,  
Even just when you look at me,  
Its like its you and me in our own world,  
Just like you and me seeing each other 10 years from  
now,  
Why won't you tell me 'I like you' its over and done with,  
Can it be just you and me?

We were walking down the class room hall,  
It looked like everyone else was jealous and all,  
saying, 'like they're perfect together and all,'  
Then one day you got me mad,  
But you knew I'd still love you no matter what,  
Then it was to sad too end it like this,  
Can we just sneak a last kiss?

[chorus]

Can it be just you and me from now on,  
Nothing else matters to any us anymore,  
Just when I was starting to hate you I turned around and  
said,  
'Can it be, just you and me from now on?'  
Nothing else will matter until you say,  
'Can it be, just you and me, from now on?'

With you loving me theres not a thing I can do,  
Just sit back, let it go  
Cuz I know, I'm going to regret every word I say starting  
now,  
Why can't it be, just you and me?

Nothing else will matter just right now,  
Just singing my heart out will be just fine...  
For now,  
You and me just begun.
