"Hard 2 Stop"

Sitting with thoughts of you
Thinking 'bout what love's all we knew
Never thought that I would lose
You, a part of me boy, but soon
Things seemed to change their view
And all we did together was through
But all I know is I miss you
Everything I see now is you

When I'm walking round, things I'm looking at
Seem to bring everything I'm feeling back
And it's true, I can't stop thinking of you
You know I do, still care about you
So, all my girls are telling me to move on
But I'm wishing I had you to carry on
Cause what I'm feeling inside is so strong
And I can't stop thinking 'bout you

Keep thinking, I'm missing you
And me boy and it's hard to stop
Reminiscing, us kissing it
Was good boy and it's hard to stop
I'm wishing it was still you
And me boy and it's hard to stop
My mission is to get you back
With me boy and it's hard to stop

Now there's no way I can't be
Happy knowing you're not with me
Never thought that you would leave
Cause you said you'd always love me
So tell me what you think of me
Tell me, do you miss me, baby
Cause I know what I'm feeling
And how can I continue thinking?

When I'm walking round, things I'm looking at
Seem to bring everything I'm feeling back
And it's true, I can't stop thinking of you
You know I do, still care about you

So, all my girls are telling me to move on
But I'm wishing I had you to carry on
Cause what I'm feeling inside is so strong
And I can't stop thinking 'bout you

Keep thinking, I'm missing you
And me boy and it's hard to stop
Reminiscing, us kissing it
Was good boy and it's hard to stop
I'm wishing it was still you
And me boy and it's hard to stop
My mission is to get you back
With me boy and it's hard to stop

Do you think you'll change?
Start seeing things my way {see it my way}
Don't you wait too late
I might stop feeling this way
If I say it's okay
Let's just go our separate ways
Don't you call the next day
Saying, "baby wait, I can explain"

Keep thinking, I'm missing you
And me boy and it's hard to stop
Reminiscing, us kissing it
Was good boy and it's hard to stop
I'm wishing it was still you
And me boy and it's hard to stop
My mission is to get you back
With me boy and it's hard to stop

Keep thinking, I'm missing you
And me boy and it's hard to stop
Reminiscing, us kissing it
Was good boy and it's hard to stop
I'm wishing it was still you
And me boy and it's hard to stop
My mission is to get you back
With me boy and it's hard to stop

Keep thinking, I'm missing you
And me boy and it's hard to stop
Reminiscing, us kissing it
Was good boy and it's hard to stop
I'm wishing it was still you
And me boy and it's hard to stop
My mission is to get you back
With me boy and it's hard to stop
