"Hard To Stop"

Visit "[Hard To Stop](#)" on MotoLyrics.com

Sitting with thoughts of you
Thinking about when love was all we knew
Never thought that I would loose
You were part of me boy but soon
Things seemed to change with you
And us being together was through
But all I know is I miss you
And everything I see now is you

When I walk around things I'm looking at
Seem to bring everything I'm feeling back
And it's true I can't stop thinking of you
Know all I do is care about you
So all my girls are telling me to move on
But I'm wishing I had you to carry on
Because what I'm feeling inside is so strong
And I can't stop thinking about you

Keep thinking I'm missing you and me boy
And it's hard to stop
Reminiscing us kissing, it was good boy
And it's hard to stop
I'm wishing it was still you && me boy
And it's hard to stop
My mission is to get you back with me boy
And it's hard to stop

Now there's no way I can be happy
Knowing you're not with me
Never thought that you would leave
Because you said you would always love me
So tell me what you think of me
Tell me do you miss me baby
Cause I know what I'm feeling
And I cannot continue these games

When I walk around things I'm looking at
Seem to bring everything I'm feeling back
And it's true I can't stop thinking of you
Know all I do is care about you
So all my girls are telling me to move on

But I'm wishing I had you to carry on
Because what I'm feeling inside is so strong
And I can't stop thinking about you

Keep thinking I'm missing you and me boy
And it's hard to stop
Reminiscing us kissing, it was good boy
And it's hard to stop
I'm wishing it was still you && me boy
And it's hard to stop
My mission is to get you back with me boy
And it's hard to stop

Do you think you'll change
And start seeing things my way
Don't you wait too late
I'm not start feeling this way
If I say it's ok
Let's just go our separate ways
Don't you call the next day
Saying baby wait I made a mistake

[Repeat 3x's]
Keep thinking I'm missing you and me boy
And it's hard to stop
Reminiscing us kissing, it was good boy
And it's hard to stop
I'm wishing it was still you && me boy
And it's hard to stop
My mission is to get you back with me boy
And it's hard to stop
