"Long Gone"

Visit "[Long Gone](#)" on MotoLyrics.com

Yea yea
I don't know how to please you
Every thing was looking up and now it's looking down
And I don't know what I'm supposed to say
It seems your mind is on the other side of town
And I don't know what I'm supposed to do
Another day with you is just another fucking day
Somebody please tell me what to say
Or is it ok to feel this way
Cuz I don't know about us anymore
No matter what my mouth may say
I don't know about us anymore
Laying beside you suddenly feels strange
If I say I love you
You gon' say you love me back
But the thing about that it's so far from the facts
See I don't know about us anymore
No matter what your mouth may say

Cuz your heart says long long long la la la long gone
Long long la la la long gone
Your heart says long long long la la la long gone
Long long la la la long gone
Your heart says long long long la la la long gone
Long long la la la long gone
Your heart says long long long la la la long gone
Long long la la la long gone

I forgot how to touch you
Cuz every time I reach you pull away
And I've forgotten how to fuck you
And now when you say my name it don't feel the same
But tell me how I'm supposed to hold you
Do you want to fix it or dismiss it baby just let me know
How I'm supposed to love you
Girl stop acting like I'm trippin'
What cha all lookin at mind your business

Cuz I don't know about us anymore
No matter what my mouth may say
I don't know about us anymore

Laying beside you suddenly feels strange
If I say I love you
You gon' say you love me back
If I say I love you
You gon say you love me back
But the thing about that it's so far from the facts
See I don't know about us anymore
No matter what your mouth may say

Cuz your heart says long long long la la la long gone
Long long la la la long gone
The heart says long long long la la la long gone
Long long la la la long gone
And the heart says long long long la la la long gone
Long long la la la long gone
The heart says long long long la la la long gone
Long long la la la long gone

Ohh ohh
I used to love you babe
I used to love you babe
Now it's not the same
And your heart stops
Long gone
Long gone
