Shorty, I really wanted to be everything you need
Come on, come on, come on baby
Who knows what would've happend if you stayed that,
that night with me
Come on, come on, come on baby
I told you to come and get with me, promise I wouldn't
leave you
Come on, come on, come on baby
You never thought that he would be the one, one, one,
one to deceive you
Come on, come on, come on baby

Now it's awful cold in the house he bought you
And I've gotten over living without you
Springtime, summertime, falltime, winter
And all of our love we had just starting to remember

But you was off the game
And everything done changed
Cuz now I'm making love to Nikki
And I don't feel bad and no I ain't sad
Cuz I been making love to Nikki
He was the one that you ran to
The one you gave your hand to
So don't say you didn't plan to
So everytime that you think of me
Know I been making love to Nikki
Love to Nikki

She loves me back

Now everything that he told you when you were with
me, you believed it
Come on, come on, come on baby
Considering the fact that it was you, you were the one
that was cheating
Come on, come on, come on baby
He told you I was with the girl up in The Palms
We up in the studio, shorty all on my arms
We all up at the park throwing back shots at patron
My whole life was in a lane, what kind of shit were you
on

But it's awfull cold in the house he bought you
And I've gotten over living without you
So springtime, summertime, falltime, winter
I'm here to leave you with the last thing you remember

See you was off the game
But now everything is changed
Cuz I've been making love to Nikki
And no I ain't mad, hell no I ain't sad
Shorty I been making love to Nikki
He was the one that you ran to
The one you gave your hand to
So don't say you didn't plan to
And everytime that you think of me
Know I been making love to Nikki
Love to Nikki

And she loves me back
She loves me back
She she she she loves me back
She loves me, she she she she loves me back
She loves me

And now you calling me saying you didn't mean to do
me wrong
You've died in my heart, so go ahead and live in his
arms
My loves out the window, that's everything though
Peace up A-town ride out
Cuz I'm sitting in the six-four,
Girl as the wind blow, baby imma ride out
When you heart is broken,
Go ahead pick it, go ahead pick it up
Go ahead suck it up

You was off the game
Now everything is changed
I've been making love to Nikki
Now...
