On her way to see me (ahhh)
She's far from the girl that you used to know
Flossin' keys to your phantom and you know that she's
my girl
Still you try to get at her but she pushed the brakes on
that s**t like oh
And I don't blame u cause god d**n the girl look good
she said she could'nt even if she could

She needs my love she said I'm like the air and without
me she'll die
If it aint my love you better have a doctor on standby
She needs my love she said I'm like the air and without
me she'll die
If it aint my love you better have a doctor on standby

Yessir

From the look of my wardrobe I can see why you mad
though
See me up in bankhead chillin' with a bad hoe
Tell oprah I'm sorry I really meant too say bad though
She keep them thongs ch ch ch chewin' on her a**hole
I'm all up on her a** though runnin it like a cash flow
I'm still hood even though my bank account upperclass
tho
We 3 minutes into the song but still n***a u mad
though
But nah he switchin' from my wrist cause my wrist got
the mad glow

She needs my love she said I'm like the air and without
me she'll die
If it aint my love u better have a doctor on standby
She needs my love she said I'm like the air and without
me she'll die
If it aint my love u better have a doctor on standby
Call 9-1-1 if my love aint there
Call 9-1-1 tell paramedics 2 bring her air

She needs my love you
Better have a doctor on standbye
