

Dream Atlantic "Shredders"

Visit "[Shredders](#)" on MotoLyrics.com

Let's take this party to the streets
Fill up your cup the rally's free
It's time to ride, to catch the morning light
We guard our colors, support our brothers
Living the life, the way it should be

It's not a riot, without your comrades
And some violence
Let's rock, let's rock
Let's rock and never fucking stop
Let's take it to the streets

This day and age the lack of trust
In civil settings forces us
To band together
To die together
We'll show our strength in numbers
At the sight of any trouble
We are shredders, we are forever

It's not a riot, without your comrades
And some violence
Let's rock, let's rock
Let's rock and never fucking stop
Let's take it to the streets

With blood, we've proved ourselves
Worthy of the hype
With force, we'll spread our will
Our will until we die

It's not a riot, without your comrades
And some violence
Let's rock, let's rock
Let's rock and never fucking stop
Let's take it to the streets

We are shredders
And we are forever
