"Mean Machine"

Every day I need to feel you, I need you around
Every night I need to hear you, I love your sound
I just can't live without you, we are blood-bound

Before our life together, I was alone
I was a mean old bastard, bad to the bone
Cared only for myself, had a heart of stone

When the day arrived, and I saw you in the light
I knew we're meant to be forever

Aaaah, aaah my mean machine
Aaaah, aaah controls my destiny

Every day and every hour, you fill my mind
I got no friends or family, I left them behind
A force of steel and power, IN THE NIGHT

When the day arrived, and I saw you in the light
I knew we're meant to be forever

Aaaah, aaah my mean machine
Aaaah, aaah controls my destiny

Aaaah, aaah my mean machine
Aaaah, aaah controls my destiny

Aaaah, aaah my mean machine
Aaaah, aaah you are my destiny
