### "United"

Welcome to the evil side  
Spread the word, nationwide  
Come and drink this blood of mine  
It will increase your metal spine

I promise you, join us now  
You won't scream  
Don't be scared, join the force of steel

We are all United  
We will spread the word  
All United  
We can change the world

Help us roll these thunder wheels  
Natural warriors never kneel  
Stand up proud, prepare to fight  
Scream out loud, your metal rights

I promise you, join us now  
You won't scream  
Don't be scared, join the force of steel

We are all United  
We will spread the word  
All United  
We can change the world

(guitar solo)

We are all United  
We will spread the word  
All United  
We can change the world
