

## Dream Evil

### "Into The Unknown"

Visit "[Into The Unknown](#)" on MotoLyrics.com

Never talk to strangers, never meet their eyes  
Stay away from danger, never leave the light  
Don't heed into darkness, it might be your fall  
Turn away whenever evil calls

So where's the road where you can go  
In the day or night, in the dark or light  
And you need to find a way somehow  
When you hear the call you want it all  
Walk into the unknown

If you want to know, you got to go and to leave safety  
behind  
Stand on the razor's edge, out of control, when you  
walk into the unknown

Seek the truth of living, find the way of life  
Unveiling all the secrets, stand and take the fight  
When your heart is bleeding, when your soul is torn  
Turn around, take another door

So where's the road where you can go  
In the day or night, in the dark or light  
And you need to find a way somehow  
When you hear the call you want it all  
Walk into the unknown

If you want to know, you got to go and to leave safety  
behind  
Stand on the razor's edge, out of control, when you  
walk into the unknown

So, if you want to know, you got to go and to leave  
safety behind  
Stand on the razor's edge, out of control, when you  
walk into the unknown
