

Dream Evil

"The Return"

Visit "[The Return](#)" on MotoLyrics.com

Open your eyes, look at the sky
The dawn you have feared is arisen
Where is the light? The sun's in a dark disguise

The summer had fled, it's autumn instead
What happened to birds in the sky?
The ground is all black like shadows in the night

This is unreal, I can not believe
She's still alive, stronger than ever

Watch out the dragon is back
Stand strong, the beast will attack
She's back, more evil than ever

The day has arrived. Just try to survive
Prepare for the fight of your life
Armour of steel and swords make you feel alive

Now is the time. Here is the place
Today is a good day to die
Gather your men. Give the command to ride

This is unreal. I can not believe
She's still alive. Stronger than ever

Watch out the dragon is back
Stand strong, the beast will attack
She's back, more evil than ever

This is unreal, I can not believe
Now she's back again
This is unreal, I can not believe
She's still alive. Stronger than ever

Watch out the dragon is back
Stand strong, the beast will attack
She's back, more evil than ever
