

Dream Evil "United"

Visit "[United](#)" on MotoLyrics.com

Welcome to the evil side
Spread the word, nationwide
Come and drink this blood of mine
It will increase your metal spine

I promise you, join us now
You won't scream
Don't be scared, join the force of steel

We are all United
We will spread the word
All United
We can change the world

Help us roll these thunder wheels
Natural warriors never kneel
Stand up proud, prepare to fight
Scream out loud, your metal rights
I promise you, join us now
You won't scream
Don't be scared, join the force of steel
We are all United
We will spread the word
All United
We can change the world

(guitar solo)

We are all United
We will spread the word
All United
We can change the world
