Dream Street
"Look For Me"

I'm looking for someone, but not just anybody
I've been around I've had my fun
Now it's time to fall in love
I want to find a smile, a smile to kiss
Someone to hug, and hold hands with

Cause I've been keeping my pockets warm
for too long
And I wanna hold someone's hand,
to whom I belong
To think about when I hear a love song
Hang up the phone and say I love you
Stay up all night thinking about you

I want to hold someone in my arms,
hold them so tight, forever
And standing there would be
just like heaven, cause we're together
And then I'd sing her a song staring
right into her eyes
A song just for her, a song that I wrote for her

Cause I've been keeping my pockets warm
for too long
And I wanna hold someone's hand,
to whom I belong
To think about when I hear a love song
Hang up the phone and say I love you
Stay up all night thinking about you

Cause I've been keeping my pockets warm
for too long
And I wanna hold someone's hand,
to whom I belong
To think about when I hear a love song
Hang up the phone and say I love you
Stay up all night thinking about you

Cuz I'm looking for love, but it's so hard to find
My heart's open, so come step inside
Looking for love, I must be blind

So girl, start looking for me
Look for me

I hate being alone, staring
at the stars on my own
I need a girl, a girl to tell me she really cares
And if she needs someone,
I would always be there

Cuz I'm looking for love, but it's so hard to find
My heart's open, so come step inside
Looking for love, I must be blind
So girl, start looking for me
Look for me

Cuz I'm looking for love, but it's so hard to find
My heart's open, so come step inside
Looking for love, I must be blind
So girl, start looking for me
Look for me
